

# SHOPIFY CONFIGURATION INSTRUCTIONS - BETA

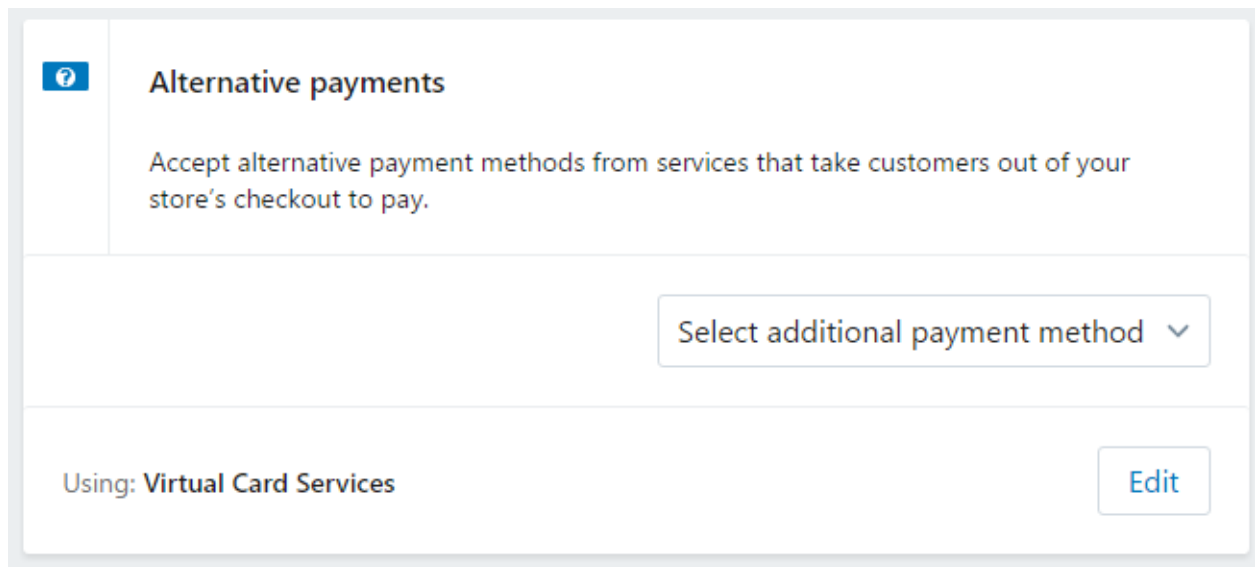

---

## ACTIVATING VCS PAYMENT GATEWAY ON SHOPIFY

- Click on the link below to activate VCS as a gateway on your Shopify site:  
[https://www.shopify.com/login?redirect=authorize\\_gateway%2F1031187](https://www.shopify.com/login?redirect=authorize_gateway%2F1031187)
- Once you have logged in you will get the message below. Click on “Add payment gateway”

- Then click on “**Payments**” on the left menu in Shopify and under *Alternative Payment Methods* look for “Using: Virtual Card Services” and click on “**Edit**” (See sample below)

- You will see the following fields:

## Alternative payments

Accept alternative payment methods from services that take customers out of your store's checkout to pay.

Select additional payment method ▾

Using: **Virtual Card Services**

Edit

Use test mode ⓘ

VCS Terminal ID

FP97

password

.....

Show

Deactivate

Save

- In the **VCS Terminal ID** field, enter your VCS Terminal ID.
- In the **Password** field enter **iU44RWxeik**
